Overview

Office for Victims of Crime Performance Measure Reporting

Helping Crime Survivors Find Their Justice

How Office for Victims of Crime Uses Performance Measure Data

The accuracy and timeliness of reporting performance measure data is extremely important. Data reported by grantees allows OVC to—

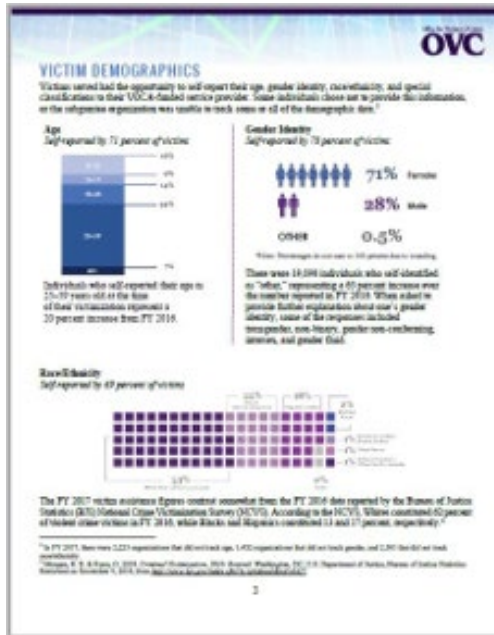

- Demonstrate the value and specific benefits of the program to Congress, federal and state government agencies, the victim services field, the general public, and other stakeholders.
- Generate an annual report on the program to demonstrate output of grant funding.
- Emphasize progress made toward achievement of OVC's strategic and program goals.
- Reach the target audience of grantees, federal partners and agencies, and the general public.

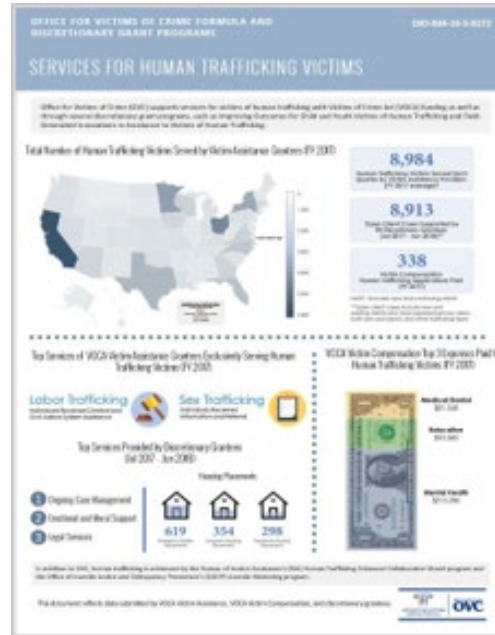

Helping Crime Survivors Find Their Justice

Developing Future Victims Specialists Reporting System, Reports, and Deadlines

Reporting System

Justice Grants System (JustGrants): A grants management system that provides applicants and grantees with an end-to-end experience throughout key parts of the grants management lifecycle.

- JustGrants will serve as the only platform for data reporting for DFVS grantees
- DFVS for American Indian/Alaska Native Victims of Crime grantees will submit Progress Reports (PR) directly into JustGrants

Reports

Quantitative Performance Measure Report

Standard performance measure data about OVC-funded program activities that were completed over a 6 months reporting period. This data is entered directly into JustGrants under the PR for that reporting period.

Semiannual Narrative Report

Qualitative information about program goals, activities, and other factors that impact program delivery. These responses are open-ended and can contain numbers. They are completed in a Word document provided by the OVC grant manager and attached to the JustGrants PR before submission.

Applicant Measures

Semiannual Narrative Questions

Only OVC-funded activities should be reported. Grantees only need to respond to question sets and specific measures with data that applies to their OVC funded work. Any activity completed from other funding sources should not be included in the collected data.

Types of Questions

Baseline Questions

Some question banks include baseline questions. Baseline questions gather information about activities that occurred prior to the grant becoming operational. Baseline data for performance metrics is established at the beginning of the data collection process to support an assessment of the initiative. Grantees should enter the same baseline data for each Performance Report.

Current Reporting Questions

Quantitative and qualitative information about grant activity that takes place during the reporting period.

Grant Activity

1. Is this the last reporting period during which the award will have data to report?
2. Was there grant activity during the reporting period?*

**Grant activity occurs when the grantee has obligated, expended, or drawn down grant funds to implement objectives proposed in the OVC-approved grant application. An answer of “Yes” indicates that the program is operational and should remain so until the grant closes out.*

Training

Report data on [training opportunities](#) that were conducted by the grantee organization for interns under this program.

Provide data, including:

- Number of hours of internal and external training delivered to or completed by interns.
- Number of interns who attended or completed training.
- Information on credentials for training completion.
- Results of feedback surveys (if feedback surveys were distributed and collected).

Collaborative Partnerships

Report information on partner organizations participating in the initiative as a result of grant funding.

Provide data on:

- New groups/organizations/agencies participating during the reporting period.
- Total number of groups/organizations/agencies participating during the reporting period.

* *Baseline question included in this question set.*

Helping Crime Survivors Find Their Justice

Strategic Planning

Provide information on [planning documents](#) that were completed during the reporting period.

Types of planning documents listed:

- Mission and/or Vision Statement
- Advisory Board Charter
- Community Partnership Memoranda of Understanding or Memoranda of Agreement
- Internal Needs or Strengths Assessment
- Community Needs or Strengths Assessment
- Program Logic Model
- Action Plan
- Evaluation Plan
- Sustainability Plan
- Data Collection Plan
- Standard Operating Procedures

Partnerships – Shared

Report information on **formalized collaboration agreements developed and letters of support received** that were funded as part of the agreement. Formalized agreements must be signed by heads of organization with authority to commit resources such as time, dollars, staff, and facilities. Letters of support lend organizational support but do not commit resources.

Provide data on:

- Formalized agreements developed.
- Letters of support secured.
- Level of involvement of partners.

* *Baseline question included in this question set.*

Applicant Measures

Report information on [application process and outcomes](#) for DFVS internships during the reporting period.

Provide data on:

- Number of applications received and those received from qualified applicants.
- Number of applicant interviews conducted, and applicants accepted or hired.
- Number of entrance and exit interviews or surveys conducted and outcomes.
- Number of interns who started and who completed an internship.
- Number of interns who indicated that they plan to pursue career in victim services.
- Number of victims served at host site and those served by interns.

* *Baseline question included in this question set.*
