## NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**

The Commission received 73 more claims this fiscal year than in 2017-2018. This is fairly significant because if each claim were paid the maximum, it would be a considerable amount(1,460,000) of our fund balance. Information about the Commission is disseminated through staffs' presentations, law enforcement, district attorneys' offices, funeral homes and medical facilities, resulting in additional applications.

2. **The average length of time to process an application for claim eligibility for compensation**

Count days from time of receipt of application to decision. 67

Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. The application is received into the office, date stamped and assigned to a specialist by jurisdiction(county). the victim or claimant (V/C) is sent an initial letter informing them that their application has been received and the letter sets out specific information that is needed to continue processing the application. Additional requests may be made of the V/C, service providers, victim service officers, law enforcement, etc. A summary of the incident is written based upon information gathered during the review process. All the information is received and reviewed, then the specialist makes an eligibility recommendation. Once the claim is completed by the specialist, it is team reviewed by the claims managers, the attorney, and executive director. Claims for compensation over two-thousand dollars and forwarded to the Commissioners for the decision. They complete the review of the claims and send the packet back. The administrative assistant documents all claims that were agreed upon for the consent docket and those that were not agreed upon or need further discussion are put on a non-consent docket for the monthly Commission Meeting (second Thursday of each month). The executive director makes decisions on all claims two thousand dollars and under. For all claims that are approved, the payments are imported from the claims system to the accounting system. Once the accounting system has processed that information and cut checks, the check information is exported from the accounting system to the claims system to print letters. The checks are signed by the director and one other individual or two other individuals in her absence and sent to the victim, claimant, payee or service provider.

3. **Does your state have a victim satisfaction survey?**

No

4. **Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.**

The great amount of OVC funds going to Assistance is having a negative affect on our program. The awards Assistance gives to forensic programs have significantly increased the number of forensic exams we receive. The Commission is paying twice as many programs forensic exams since around 2013. Reductions were capped for forensic exam payouts.

5. **Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.**

The Commission enjoys a good professional relationship with victim service officers who work for the federal government. We complete the memorandum of understanding for reports needed from the Federal Bureau of Investigation. They refer victims, and we share information on claims to assist victims.

6. **Please describe any notable activities during the reporting period that improved the process of victim compensation services.**

The Commission continues to provide hands-on assistance to homicide survivors who come into the office. A special presentation was made to the Association of Funeral Directors in the state of Alabama to assist them in helping our victims.

7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**

VOCA Administrative funds were used to underwrite travel for staff to attend the national conference. The balance of the funds was used to pay claims to victims and claimants.

8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**

9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**

The Commission has a positive relationship with prosecutors, law enforcement, the U.S. Attorney's Office, and VOCA Assistance Coordinator. The Commission also has a good working relationship with the Attorney General's Office. The Commission's staff has memberships on and attends human trafficking and Elder Abuse committees to affect change to help vulnerable populations.
