NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**
The change in the number of applications from 647 in FY18 to 590 in FY19 can be attributed to the fact that the Commission has been working to train Victim Witness Advocates in each of the counties Prosecuting Attorney s offices and community partners who provide Commission applications to ensure that applications are being provided to the victims who meet the Commission s statutory requirements.
2. **The average length of time to process an application for claim eligibility for compensation**
Count days from time of receipt of application to decision. 81

Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. Upon receipt of an application, the Commission staff inputs the data into the system and creates a physical file. If medical records and/or billing needs to be requested, it is done at this time. Police reports are then subpoenaed and upon receipt are then assigned to an investigator. The investigator reviews the case and if any follow ups are needed, they are done at this time. The investigator issues a decision and order to pay the victim an acknowledgement award and any expenses that are verified and can be paid at that time with the case left open to pay further expenses. When there are no further expenses, the case is closed.
3. **Does your state have a victim satisfaction survey?**
No
4. **Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.**
The Commission has had to work with investigators in training over the past fiscal year that has impacted the Commission's ability to process claims as efficiently as it would like.
5. **Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.**
The victim advocates in the State of Hawaii meet on a quarterly basis. The Commission attends these meetings which are attended by the advocates from the FBI and the US Attorney's Office. Having this relationship with the federal advocates makes it easy to work with them to assist federal crime victims.
6. **Please describe any notable activities during the reporting period that improved the process of victim compensation services.**
The Commission has been actively working to establish its own framework and procedures for response in the event of a mass casualty incident. The Commission has also taken the lead to establish the framework and policies and procedures for victim response/assistance with the county prosecutors' offices.
7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**
The Commission did not use the VOCA Administrative funds over the past federal fiscal year.
8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**
The Commission's statute was changed during the 2019 legislative session to include mental health treatment for family members of deceased victims and for children who witness domestic violence in Commission cases.
9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**
The Commission attends the quarterly victim advocate meetings and works with victim assistance representatives from the counties prosecutors' offices, the FBI and US Attorney's Office, and military victim assistance representatives. The Commission also leads the JRI victim assistance and restitution meetings attended by representatives from the police and the courts. The Commission has taken the lead in coordinating statewide Mass Violence Training for responders with an emphasis on victim services and coordinating the victim assistance/compensation response in such an incident. Additionally, the Commission serves on the state VOCA advisory board to determine the prioritization of the spending of VOCA funds and is on the VOCA panel to provide guidance for the establishment of a State Victim Assistance Academy.
10. **Please explain any public outreach efforts to improve awareness of your program.**
The Commission has been conducting training about its services to direct victim services staff of VOCA grant recipient programs in the State.

11. **Please list any other outcome measure(s) that are reported to the governor, legislature, or other state entity that have not been reported in this submission. Provide the actual measure(s). The data may be reported separately in your progress report.**

None.

12. **Please provide any additional comments that are helpful to improving the Victim Compensation state and/or federal program.**

None.
